

Prototypes as 3D design

ON REQUEST, WE CAN PRODUCE A 3D PLASTIC PROTOTYPE OF YOUR SPECIAL PROFILE IN ADVANCE!

THE BENEFIT OF 3D-PRINTING

- Quicker prototype production compared to conventional methods
- Function checks and fault detection possible in the product engineering process
- Ideal for sample inspections

TECHNICAL SPECIFICATIONS

- Cross-sections of up to 180 x 180 mm possible
- Heights of up to 200 mm possible
- Very accurate dimensional tolerances of ± 0.3 mm
- Available in blue, white or grey

THIS IS HOW IT WORKS

Version 1: You have a sketch

- We draw the profile for you in dwg format
- You approve the drawing
- We print a 3D sample of the required profile
- You receive the profile sample and the dwg drawing

Flat rate¹ VAT not included: € 180.-

Version 2: You have a suitable 2D or 3D drawing in dwg format

- We print a 3D sample of the required profile in line with your drawing
 - You receive the profile sample
- Flat rate¹ VAT not included: € 90.-

¹ Price valid until canceled. Status: May 2016

DELIVERY TIME

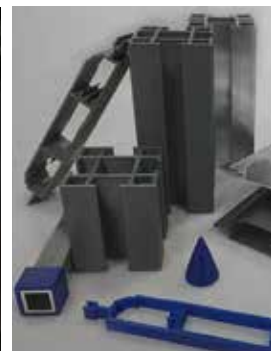

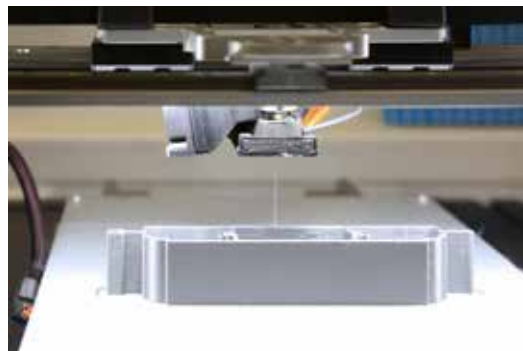

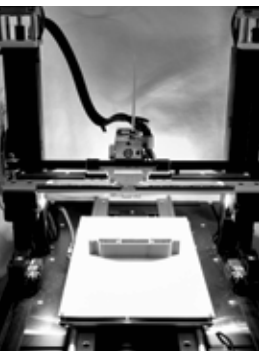

One to two weeks, depending on the version

WE LOOK FORWARD TO HEARING FROM YOU

Then we will gladly tell you more about the benefits of a 3D print and work out the best option for you in the matter of „My Special Profile“.
